

QUALITY POLICY

It is the Policy of African Group Lubricants (Pty) Ltd, to manufacture, procure, store, and distribute quality lubricant oils, greases and degreasers, within a safe and reliable operation that is underpinned by a service offer that exceeds customer requirements.

Our management system shall comply with the requirements of ISO 9001: 2015.

Our organisation is committed to achieving this vision through the following objectives:

- Providing products and services that meet and exceed the requirements of interested parties, including customers and shareholders
- Supplying products at cost competitive prices, without compromise to quality
- Continually improve the effectiveness of our management system and organisational performance in line with strategic direction, for the benefit of our stakeholders
- Training our employees in the needs and responsibilities of this Quality Management System and developing them to improve core competencies
- Selecting suppliers and partners fairly and equitably and evaluating their contribution to the organisation's quality output
- Complying with applicable legal, regulatory and customer requirements

Top Management commits all staff to the implementation of the Quality Policy by providing necessary resources and support management of the business operations.

All staff shall be conversant with quality objectives and procedures relevant to their operations and comply with them at all times.
